GOVERNMENT POLYTECHNIC, AMRAVATI

(An autonomous institute of Govt. of Maharashtra)

Vision

- ✚ To be a vibrant technical institute of global repute contributing towards the needs of industries and society.

Mission

- ✚ To develop competent diploma engineers suitable for the contemporary industrial environment.
- ✚ To inculcate socially accepted ethics and values among budding engineers.
- ✚ To nurture innovations and entrepreneurship.
- ✚ To produce engineers with psychomotor & cognitive skills committed to lifelong learning.

COMPUTER ENGINEERING DEPARTMENT

Vision

- ✚ Provide Skilled professional in computer engineering to contribute toward the advancement of technology useful for society and industrial environment.

Mission

- ✚ Impart need based and value based education by providing explorer of latest tools and technology in the area of computer engineering to satisfy the stakeholders
- ✚ Upgrade and maintain facility for quality technical education with continuous effort for excellence in computer engineering
- ✚ Train students with computer engineering knowledge to apply it in general discipline of design, deployment of software and integration of existing technology for e-governance and for benefit of society.
- ✚ Provide a learning ambience to enhance innovation, problems solving skills, leadership qualities, team spirit and ethical responsibilities.
- ✚ Provide an academic environment and consultancy services to the industry and society in the area of Computer Engineering.

ACKNOWLEDGMENT

**IT GIVES US PLEASURE ON BRINGING OUT
THE PROJECT TITLED**

“Online Job Portal Application”

With humility and gratitude, we acknowledge our indebtedness to our project guide Prof. V.R. Rathod for his valuable guidance, supervision & untiring help without which this work would not have been accomplished. We are extremely grateful to him and consider this a privilege to get the opportunity to work under his guidance and supervision.

Our sincere thanks to our HOD DR. P.R. SATAV for permitting me to undergo this project. I would like to thank Dr. V.R. MANKAR, principal of our institute for providing the necessary facilities during the period of working on this project. We also express our thanks to our friends who knowingly or unknowingly helped us during the preparation of this project.

Finally, we would like to express our sincere gratitude towards our parents who provided us with a launchpad, and because of that, we are at this level of our career.

Shravani A. Shinganwadikar (20CM052)

Atharav S. Mankar (20CM032)

Samir S. Sontakke (20CM053)

Nikita V. Suple (20CM055)

Ujjwal P. Nimbokar (20CM059)

**FINAL YEAR COMPUTER ENGINEERING
GOVT.POLYTECHNIC AMRAVATI**

ABSTRACT

Job portal service was developed for creating an interactive job vacancy form for candidates. This web application manage updates both from the job seekers as well as the companies. It's unique development methodology helps in acquiring the client and candidate information and separating them according to the job requirements and vacancies.

The online access to it provides details of the job. An employer being registered in the web site has the facility to use the services. Being an authorized user he can publish vacancy details and can search no of Employees on portal and also he can search candidates on basis of the key skill which employee provides on registration.
